CONDITION OF THE MARKETS

An Unusual State of Affairs Causes Great Excitement in the Wheat Pit.

The 'Bulls' Obtain Control and the Market Moves Up and Down Rapidly, Closing About Three Cents Higher Than on Wednesday.

MONEY, BONDS AND STOCKS.

bull Market in New York, Final Prices Showing Irregular Changes for Small Amounts. NEW YORK, Aug. 23.-Money on call was easy at 11 22 per cent, closing offered at 2 per

Prime mercantile paper, 41 061 per cent.

Sterling exchange was dull but firmer at \$4.841 for sixty-day bills, and \$4.872 for demand. The total sales of stocks to-day were 183,941 shares, including the following: Delaware, Lackawanna & Western, 52,425; Lake Shore, 9,045; Missouri Pacific, 3,220; New Jersey Central, 10,500; Norfolk & Western preferred, 5,795; Northern Pacific preferred, 6,664; Oregon Transcontinental, 3,440; Reading, 16,210; St. Paul, 18,550; Union Pacific, 13,150; Western

The stock market to-day was in most respects similar to that of yesterday, being dull, with

small fluctuations, and while strong in the early portion of the day, lost the improvement toward the close. Lackawanna was the only marked feature of the entire day's trading, and it reached higher figures than it has attained in nearly two years. There were some rumors circulated in regard to the stock, chief among which were those of an increase in the dividend rate and that the Vanderbilts were buying the stock. Both of them lacked confirmation, however, and the same may be said of most of the stories given publication during the day. There was marked lack of news of any kind, and this was reflected in the insignificance of most of the movements in the list. The other coal stocks were strong, but the advances were not specially important, and the only other stocks in which there was a movement worthy of consideration were the Vanderbilts, St. Paul, and Northern Pacific pre ferred. St. Paul was well held until the fina raid, when it sold off rapidly for a time, but the other stocks mentioned were all strong, the Van derbiits on the reports of an increase in of the bonds being regarded as making it likely that a dividend may be declared upon the stock in the near future. There was no feature in the market at the opening, but London had a few selling orders. The traders were bearish while the commission houses did all the buying First prices were generally from 1 to 1 per cent below last night's figures, and the succeeding transactions were small and without character but at 11 o'clock the coal stocks came to the front and Lackawanna became very active a well as strong. About 1 P. M. it reached it best figure, and after that time weakness appeared in the list, the traders renewing their tactics of yesterday. The early gains were generally lost before the close, and though prices remained about stationary after delivery hour, the market closed rather

heavy at irregular changes for the day. The final prices show irregular changes, generally for fractions only, the only important one being a gain of 1 per cent. in Lackawanna.

The railroad bond market was utterly devoid of feature of any kind, being duil, with small fluctuations, prices during most of the time being practically stationary. The transactions feeted up only \$251,000.

Government bonds have been dull and steady.

State bonds were dull and featureless. Clos-

CHICAGO, Aug. 23.-The conditions in wheat to-day were such as seldom exists, and the advance was therefore remarkable. The close yesterday found a large "short" interest among the smaller traders here and at New York. The selling for a reaction was encouraged by the large operators, who believed in and were working for a further advance in prices. The cables which the "shorts" expected this morning did not come. Spot wheat in the United Kingdom was dearer, with futures strong and the price of American wheat advancing. In addition, the weather was wet abroad, and all this bullish news was backed up by buying orders by the foreigners. There was foreign buying, country buying, buying by "shorts," and still heavier taking by the already "long" interest. The crowd, several times during the morning stopped buying long enough to make interest. The crowd, several times during the morning, stopped buying long enough to make realizing sales, and then got in again. The result was a "bull" day such as is seldom read about. September started 1c higher at 87%c, shot up to 88c, back to 87%c, went flying up to 89c, reacted a fraction, and then on a third and last bulge, about 11:30 A. M., went to 89% 289%c. Thirty minutes before the close the price of September was off to 88%c, and after another slight rally again reacted and became easier near the close. Wheat closed firm at 88%c for September. This price was 2%c over last night. September. This price was 21c over last night, and ic under the best point touched to-day, so that, at the highest point of the day, an advance of 21c was shown. Corn was quiet but firm, and closing prices were about the outside for the day, at an advance of ic over last night. The "bull" feeling in wheat no doubt helped the "shorts" to keep prices slightly higher. In consequence of firm markets for other cereals, oats were firmer. August advanced le, May &c, and intermediate deliveries to. It was dull most of the time in the provision pit, and fluctuations were within a narrow range. Hogs closed lower, but that market had no appreciable influence on provisions, nor did the wheat market. Opening prices were about the same as last night's close, and pork did not gain any all day, but at one time sold 7to lower, closing, however, at the top. Short ribs closed at yester-day's figures, but lard gained .12 c. The leading futures ranged as follows: Opening, Highest, Lowest, Closing.

INDIANAPOLIS MARKETS. Trade Active for August, with Strong Prices

INDIANAPOLIS, Aug. 23. In most departments trade is active for August, prices ruling strong on nearly all staple articles, with but few fluctuations in values. In fact, seldom are the changes in quotations so few as for thirty days past. Dry goods are firm, while no advances have been established. In this period of importance the dry goods mar ket as a whole is upward in its tendency On no line is weakness noticeable, and with this the manufactories which furnish the goods are closely sold up. Grocers are quite busy, the firmer tone to coffees and the steady, strong tone to sugars encouraging the belief that prices will rule no lower for some time to come, and some of the larger grocers are buying more freely. But as a rule grocers are still adhering to the hand-to-mouth policy of making their pur-chases. Mackerel and salt fish of all kinds as in the last year promise to be high. Eastern papers report a great scarcity, more especially of mackerel. Foreign fruits are meeting with fair sale. There are but few oranges on the market. while lemons are in better supply and weak at our recently revised quotations. The produce markets are active. Peaches were a little firmer to-day. Some very choice fruit is now on the market. Apples and potatoes in large supply. Our quotations cover the market, and only the choicest stock will bring our best quotations; poultry arriving in large quantities, and prices rule weak. Eggs are coming in quite freely, but with a good demand prices are well beld. Choice butter still meets with ready sale. In the other markets there is little new to note. steadiness being the leading characteristic so far as prices are concerned.

There was a fair attendance on 'Change today. The bidding can hardly be said to have been spirited, although good feeling was manifested. The Indianapolis Market Report speaks of the local situation as follows:

"Wheat-Receipts posted for past two days. 72 cars, as against 108 cars for preceding period. Since the last report markets elsewhere have scored an advance of 2c, here about 1@11c. The trade report decreased offerings from the The trade report decreased offerings from the country, but the wheat men are pretty well supplied, and although very much pleased with the course of the market, they don't care to take hold again until they see the advance established. No. 2 red would bring 87c, and possibly a fraction more. No. 3 red is selling at a discount of 325c. Rejected ranging from 82c for fancy

samples down to 75c for poor.
"Corn—Receipts posted for past two days, 24 cars as against 47 cars for preceding period. The market is very dull. Offerings of white corn continue liberal, while there is but little demand. The occasional buyer fixes his own price. The demand for mixed corn is not much better, but the supply is more limited, and the seller has little trouble to obtain the quotations. We quote No. 2 mixed, salable at 43 2431c; No. 3 mixed, | @le discount.

An Interesting Test Of Digestive Power.

Professor P. Finkler recently reports, in the Phila-pelphia Therapeutic Gazette, laboratory tests show-ing the comparative digestive power of Papoid and Pepsin as follows: A certain amount of raw meat and water was put in each of two tubes; Papoid was added to No. 1 and the same amount of Pepsin to No.2.

Papoid digested 87 Pepsin digested only per cent. of the meat.

Papoid is made from the fruit of the South American Papah tree, Pepsin from the stomach of hogs.

Are a convenient form of the new digestive drug, Papoid, and are now recommended by the highest medical authorities for all forms of dyspepsia as well as for sore throat and headache. Sold by druggists. Price, per bottle, trial size, 50 cents; full size, three times the number, \$1.25. Mailed on receipt of price by Johnson & Johnson, 92 William Street, New York.
